Class Outline

United Way for Southeastern Michigan (UWSEM)

A brief overview of United Way's three impact areas, including major goals and outcomes being measured and achieved throughout Southeastern Michigan.

Dislocated Workers Resource Information

A brief overview of available resources and programs in our community. Also provides tips to navigate through the complicated Human Service System.

Interviewing Skills/Resume Re-tooling

In today's emerging economy, this session will assist students with resume writing examples, job targeting and resume marketing. We will also provide insight on key terms, attire, and overall presentation.

Affordable Health Care/What's Next?

As the healthcare debate continues, three subject matter experts will share information regarding healthcare affordability and what it means for Michigan.

Legal Aid and Defender

Agency representative(s) will present an overview of services provided by the organization.

Alcohol and Drug Dependence

In this declining economy people often turn to drugs and alcohol for escape. This session will give an overview on how self medicating has a detrimental effect on families and where people can access help.

During this time of worksite closings, layoffs, and the general economic crisis in Michigan, the Union Counselor Activist Network (UCAN) program becomes even more vital as a vehicle for getting critical social services information into the hands of our membership. We encourage each of our local union elected leaders to reach out to your membership, and identify local union activists who demonstrate leadership qualities and enroll them in the Union Counselor Activist Network one-day program coming up in early 2010.

This program (UCAN) is an excellent way to increase activism and provide needed information. Our goal is to create a strong relationship throughout the community and worksites. It is time that we take the opportunity to cultivate relationships to build a stronger labor movement.

UWSEM Labor Participation Committee (LPC)
